Other courses to consider:		
		If you are completing a MACRAO, finding a course that will transfer to GVSU to take care of the World Perspectives category would be helpful if not completed by your choice of a history class above. See GVSU's General Education worksheet for possible options.
		If you are not completing a MACRAO, then also consider completing courses to cover the following General Education categories: Social Behavioral Sciences, Philosophy and Literature, Arts, and World Perspectives if not completed by your choice of a history class above. There are some courses that will meet more than one of these categories. See GVSU's General Education worksheet for other possible options.

CSAT = Comprehensive Science and Arts for Teaching COE = College of Education

**Taking one of HS 101, 120, 102, or 121 is the preferred option to satisfy this requirement as it will cover the World Perspectives category of the General Education Program, which is not covered in the MACRAO or by the CSAT major requirements at GVSU.
