## **Confirming Employee Hours**

The confirmation of employee hours is due by 3:00pm on the Monday immediately after the pay period has ended. After you have confirmed a time record for an employee, they are no longer able to make any changes to that record. They *are* able to add new entries. You will still have the ability to make any changes necessary. We strongly recommend that you confirm hours on a daily basis!

### To confirm ALL employees for an ENTIRE pay period:

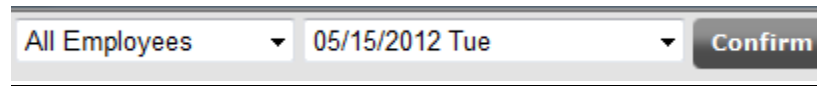

1. Select ALL EMPLOYEES from the employee drop down menu.
2. Select the current pay period from the Pay Period drop down menu.
3. Click on the 'Confirm' button at the top of the screen. A green check mark (✓) should appear in the status column next to all of the time records.

## **Locking An Employee Record**

The locking feature is used to lock the time entry system for your employees. Once the record is locked, they will no longer be able to make **any** additions, edits, or deletions to their time records. It would be beneficial for you to lock the record Monday morning that the confirmation of hours is due. This would ensure that your employee is not making any additions after you have already confirmed their hours.

To lock ALL employees for an ENTIRE pay period:

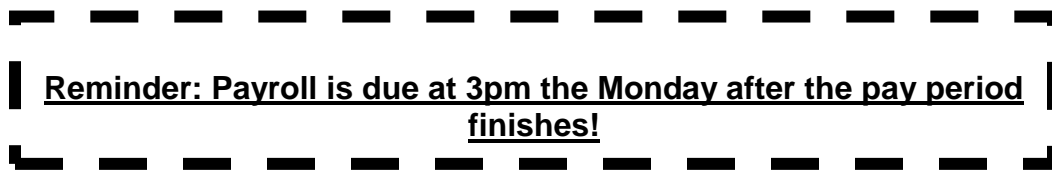

1. Select ALL EMPLOYEES from the employee drop down menu.
2. Select the current pay period from the Pay Frequency drop down menu.  
Click on the 'Lock' button at the top of the screen. A lock symbol will then appear in the status column.

Note: The system will not allow you to lock a pay period until the pay period end date has passed.

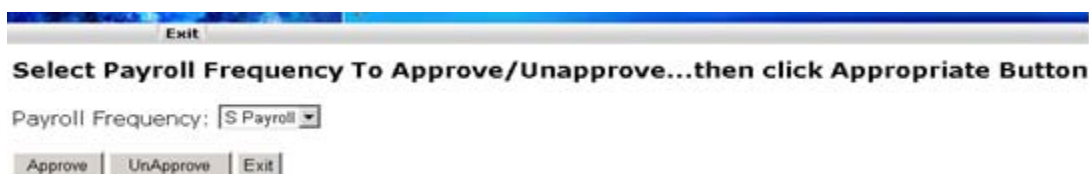

## **My Payroll Is Finished**

My Payroll is Finished is the last step in processing your student payroll. This lets the Payroll Office know that you are completely done making any additions or edits to your students' time records.

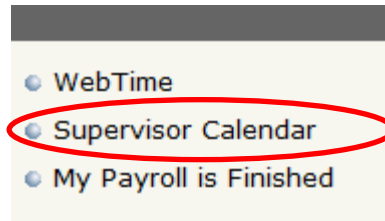

To Finish Student Payroll:

1. Exit WebTime using the exit button and click 'My Payroll is finished' on main menu screen.
2. Select pay period. For approving student payroll select 'S Payroll'
3. Click 'Approve'. A message should appear in green that looks like picture below:

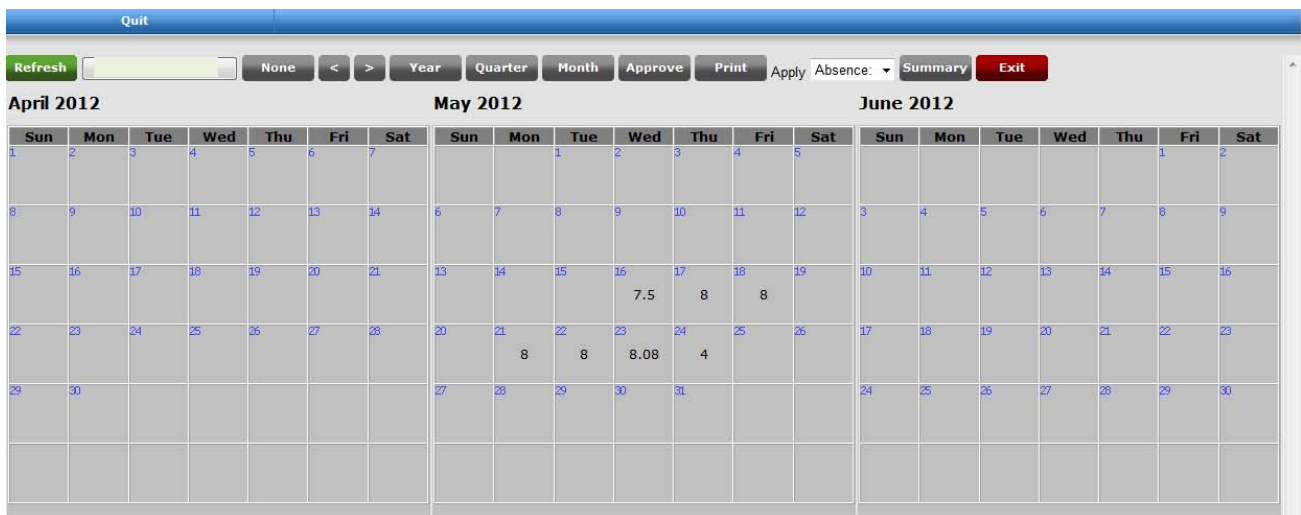

## Calendar Feature

The Calendar feature allows you to view your employee's time worked in a calendar format for the period of a month, quarter or year. This is a 'View Only' feature. No changes can be made from this view.

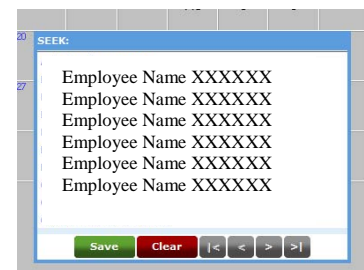

Clicking on Supervisor Calendar will change your screen to a calendar view:

1. Refresh: Refreshes the screen.
2. Name: Shows the name of the employee you are currently viewing. Clicking the employee's name will bring up the menu to choose a different employee. You can type the employee's last name to filter for him/her.
3. None: Has to do with vacation time which students are not eligible for.
4. < >: Moves you forward or backward through time.
5. Year, Quarter, Month: Changes the view between twelve, three, and one months on the screen. Above is a "Quarter" view.
6. Print: Prints a Yearly Attendance Calendar.
7. Exit: Takes you back to WebTime time entry screen.

### To select a different employee:

1. Click on the Name button.
2. A box will appear with your employee's names. Select the employee that you would like to view.
