**The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15
${ }^{1}$ Students planning on professional or graduate school should complete CHM 241, CHM 242, CHM 461, and PHY 220 and PHY 221. See the Pre-Professional Advisors in the CLAS Academic Advising Center for more information.
${ }^{2}$ Students must complete a minimum of 41 credits of Biology coursework. If students still do not have 41 credits of Biology coursework after completing both the Biology core requirements (above) and the requirements for their chosen emphasis (reverse), they should select additional Biology courses from the elective categories, BIO Issues courses, credits in research (BIO 499), or internship credit (BIO 490). Students should consult with a Biology advisor prior to selecting elective courses.
${ }^{3}$ Choose one of the following to complete the math cognate for the major: MTH 125: Survey of Calculus, MTH 201: Calculus, or STA 215: Introductory Applied Statistics. Students who don't place into MTH 201 should take MTH 124 as a prerequisite instead of MTH $122+123$. ${ }^{4}$ MTH 122/123 are prerequisites for PHY 220 and are not part of the Biology major. If a student chooses to take PHY 200, MTH 123 does not need to be completed. PHY 221 is not required but students planning to attend graduate school, professional school, or to pursue secondary teacher certification should complete the PHY 220/221 sequence. MTH 124 and/or MTH 201 will substitute for MTH 122 and MTH 123. To take the Math Proficiency Tests for MTH 122 and/or 123 online, visit this link: gusu.edu/s/mv
${ }^{5}$ Elective refers to any course that will help you earn the required 120 credits to graduate.
NOTE: Students must complete a total of two courses with an SWS attribute.
Declaring the Biology-General Major:

1. In myBanner, select "Student" > "Student Records" > "Change Major" > "Change Major 1/Program"
2. Choose "Biology-BA or BS Ecology and Evolutionary Biology" from the drop-down box.
3. Click "Submit" and then "Change to New Program"

## General Education Categories fulfilled by the Biology-Ecology and Evolutionary Biology major: Life Science and Physical Science: BIO 120 and CHM 115 (both fulfill lab requirement) <br> Mathematical Sciences: STA 215, MTH 122, MTH 123, MTH 201

Complete ONE course from Categories I, II, and III, and either one course from Category IV or an additional course from Category III.
The BIO- Ecology and Evolutionary Biology major requires a total of 41 credits of BIO classes, including certain CMB and BMS courses. Additional course(s) may be needed and can be taken from any category to reach 41 credits. Elective courses may only count in one category.
