BIOLOGY-BA OR BS-PRE-VETERINARY

The BA degree requires 3rd semester proficiency in a foreign language (201 level).

THIS IS A GENERAL CURRICULUM GUIDE AND IS NOT APPLICABLE TO EVERY STUDENT. IT IS IMPORTANT TO MEET WITH YOUR ADVISOR.

	Year	One	
BIO 121* General Biology II	4	BIO 120* General Biology I	4
Prerequisite: MTH 110 (may be taken concurrently)	(6)	Prerequisites: High school chemistry, CHM 109, or CHM	(6)
CHM 115 Principles of Chemistry I	(0)	115 strongly recommended (CHM 109 or 115 may be	(0)
Prerequisites: High school chemistry and (MTH 110 or		taken concurrently)	
MTH 122 or MTH 125 or MTH 201)	4	CHM 116 Principles of Chemistry II	5
² MTH 122 College Algebra	(6)	Prerequisites: CHM 115 and (MTH 122 or MTH 125 or MTH	(7)
Prerequisite: MTH 110 or assignment through Grand	4	201)	(7)
Valley math placement	(6)	WRT 150 Strategies in Writing	4
Gen Ed	(0)	Gen Ed	3
Gen Lu	,	Gen Lu	3
*It is strongly recommended that BIO regions talks BIO	3		
*It is strongly recommended that BIO majors take BIO			
121 before BIO 120.	,

= 1	3 14	Total	15-16**

^{**}The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15.

To take the Math Proficiency Tests for MTH 122 and/or 123 online, visit this link: gvsu.edu/s/mv

¹Choose one of the following to complete the math cognate for the major: MTH 125: Survey of Calculus, MTH 201: Calculus, or STA 215: Introductory Applied Statistics. Students who don't place into MTH 201 should take MTH 124 as a prerequisite instead of MTH 122+123.

² Students must demonstrate competency in college algebra and trigonometry as a prerequisite to veterinary school admission. Consult with your advisor regarding the math requirements for Veterinary school and the Biology major to determine the appropriate courses to take.

- ³ Students must complete a total of two courses with an SWS attribute.
- ⁴Elective refers to any course that can apply towards the 120 credit needed to graduate.

⁵Students must complete a minimum of 41 credits of Biology coursework. If students still do not have 41 credits of Biology coursework after completing both the Biology core requirements (above) and the requirements for their chosen emphasis (below), they should select additional Biology courses from the elective categories, BIO Issues courses, credits in research (BIO 499), or internship credit (BIO 490). Students should consult with a Biology advisor prior to selecting elective courses. BIO 317 is currently no longer offered and this requirement will be waived for all students until it is permanently removed from the emphasis. Please contact your assigned Biology faculty advisor if you have any questions regarding this arrangement.

Declaring the Biology-Pre-Veterinary Medicine Major:

- 1. In myBanner, select "Student" > "Student Records" > "Change Major" > "Change Major 1/Program"
- 2. Choose "Biology-BA or Biology-BS Preveterinary Medicine" from the drop-down box.
- 3. Click "Submit" and then "Change to New Program"

General Education Categories fulfilled by the Biology major:
Life Science and Physical Science: BIO 120 and CHM 115 (both fulfill lab requirement)
Mathematical Sciences: STA 215, MTH 122, MTH 123, MTH 201

Students must complete one course from Categories I and II.

The BIO-General major requires a total of **41 credits** of BIO classes, including certain CMB and BMS courses. Elective courses may only count in one category.

Classes marked with a * are recommended for Pre-Vet students.

Biology degree, but not both

Coto some to Plant Organism at Piatana	Catalana III. Animal Comaniana I Bialana
