

Biology (2012-2013)

Pre-Veterinary

This is a **general curriculum** guide and is not applicable to every student and is not a replacement for meeting with your advisor.

Consult with your pre-professional advisor early and often!

-Assumes that the MTH 110 prerequisite has been fulfilled-

***The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15.**

Notes:

¹ Choose one of the following to complete the math cognate for the Major: MTH 125: Survey of Calculus, MTH 201: Calculus and Analytical Geometry, or STA 215: Introductory Applied Statistics. Calculus is a pre-requisite at some schools.

² Consult with the Pre-Veterinary Advisor to select the appropriate classes for vet school. At least one BIO elective must be from the plant category.

Special Notes:

A. This is a **general** curriculum guide and will not work for everyone, especially those students who have AP, IB or CLEP credit. For students without high school chemistry, CHM 109 is strongly encouraged.

B. Courses that have (*Gen Ed*) written after them are classes that are required in the major and also fulfill a section of the general education program.

C. Students must complete a total of two courses with an *SWS* attribute.

It is imperative to meet with your faculty advisor or an advisor in the CLAS Academic Advising Center early in your career.

The CLAS Academic Advising Center is located in C-1-140 MAK, 616-331-8585.
