^{*}Due to the heavy prerequisite structure and class availability (most upper level courses are only offered fall or winter) it is difficult to finish this degree in 5 years if you are starting in MTH 110

Notes.

Special Notes:

- A. This is a general curriculum guide and will not work for everyone, especially those students who have AP or CLEP credit.
- B. Courses that have (Gen Ed) written after them are classes that are required in the major and also fulfill a section of the general education program.
- C. Remember to fulfill your 2 SWS requirements; 1 can be taken in the gen ed. program and 1 in your major.
- D. Some classes are in multiple sections within the gen ed. If you take a course that can be counted in two categories, you can open up 1-2 more spots for physics electives.
- E. You must have 120 credits to graduate from Grand Valley State University.
- F. 30 hours as a tutor and 30 hours in the lab are required of students seeking teacher certification. Contact the department for further information.

^{*}These courses are prerequisites to the College of Education. Student must have a minimum GPA of 2.7 in these classes, and both their major and minor. Classes must be completed prior to applying to the College of Education. A student selecting secondary education <u>must also have a teachable minor</u>. **Consult with your advisor!**** ED 370 and/or ED 379 may be taken during or after Assisting but must be taken before Student Teaching.

^{***}This course replaces MTH 300 in the major. In Fall 2010, it will be offered for the first time as MTH 480. After that, the course number will change to MTH 401.

¹ Students who pass out of WRT 305 have room to take a Gen Ed./Theme course or elective in this semester.

² Students must take BIO 328: Biomedical Ethics **OR** BIO 338: Environmental Ethics.

³ Students must complete 6 hours of science electives with a minimum grade of C (2.0) in each. Must be chosen from the following: PHY 105 (requirement for secondary education majors); any 300 or 400 level physics elective, excluding PHY 303, 306, and 307; CHM 351, 352, 356, or 358
