

PAS Program Student Policy for Policy Compliance

1. All program policies apply to all students, regardless of their location.
2. GVSU has entered into an affiliation agreement with all agencies providing Hospital Community Experiences (HCE) and Supervised Clinical Practice Experiences (SCPE). When students are participating in HCEs and SCPEs, students must comply with all applicable rules and regulations of the HCE and SCPE clinical sites. HCE and SCPE clinical sites are responsible for providing orientations for PAS students at the clinical site and notifying PAS faculty in a timely manner of any material changes in applicable clinical site policies and procedures.
