## Community Supported Agriculture 2016

## Our Story

The vision for GVSU's Sustainable Agriculture Project started as a student initiated community garden in 2008. It has grown over the years to include two hoophouses, a greenhouses, and 4 acres of productive land. The project serves as a platform for experiential education on food systems and environmental science.

## Why a CSA?

Being a SAP Community Supported Agriculture (CSA) Member allows you to taste the diversity of our abundant seasons. Members pay at the beginning of the season in exchange for a weekly share of vegetables.

By purchasing a share, you will get a high value for your dollar, while supporting the growth of experiential education and the next generation of community leaders.

## What's in a share?

*Apples, Arugula, Basil, Beans, Beets, Broccoli, Carrots, Cilantro, Cucumber, Eggplant, Flowers, Kale, Lettuce, Okra, Onions, Peas, Peppers, Potatoes, Radishes, Rutabaga, Scallions, Spinach, Squash, Strawberries, Sweet Corn, Sweet Potatoes, Tomatoes, Turnips, Zucchini, and more!*

## How do I sign up?

Members can sign up for shares in 10 week increments. With multiple pickup locations and an option for delivery, having a SAP CSA is easy!

Plus, **delivery is free** for group bundles of 3 or more at the same location.

**Refer a friend and receive a free \$10 voucher redeemable at the Farmers Market for any SAP produce.**
