

Prerequisite Structure  
 Biochemistry Major  
 Catalog years 2018 and later

- Solid arrows indicate strict prerequisites (one course must be taken before the other.) Dashed arrows indicate prerequisites that may be taken concurrently. Recommended scheduling within a 4-year program is indicated by shaded bands but is not required.
- (F) and (w) indicate courses that are taught only in fall or winter semesters.
- **These courses** are required.
- CHM 356+358 may substitute for CHM 351; this sequence additionally requires MTH 202 and PHY 230+231 in place of 220+221. See Chemistry major map for prerequisite structure. In this case CHM 352 may be taken concurrently with 358.
