

Prerequisite Structure
Chemistry Major
Catalog years 2018 and later

- Solid arrows indicate strict prerequisites (one course must be taken before the other.) Dashed arrows indicate prerequisites that may be taken concurrently. Recommended scheduling within a 4-year program is indicated by shaded bands but is not required.
- (F) and (W) indicate courses taught only in fall or winter semesters; O and E suffixes indicate odd and even years for courses taught every other year.
- **These courses** are required.
- 480 (F) Advanced Organic (temporary number and name)
- 480 (W) Advanced Inorganic (temporary number and name)
- Students must take three upper-level electives (blue).
