

The Voyage is a commitment to students in the College of Liberal Arts and Sciences (CLAS) that their education is preparation for a multitude of future possibilities. The outcome of strategic planning undertaken in the College of Liberal Arts and Sciences' over 18-plus months using appreciative inquiry, the Voyage seeks to ensure all students have access to high-impact and experiential educational practices. These practices, which faculty and staff identified as critical, have been a part of the success of GVSU. The goal of the Voyage is to highlight, resource, and expand access to these experiences for all students. For information, go online to gvsu.edu/clas or contact:

Rachel Campbell, Associate Professor of Sociology and the CLAS Voyage Curriculum Director, at campbera@gvsu.edu.

Bradford Dykes, Associate Professor of Statistics and the Student Success Data Director, at dykesb@gvsu.edu.

Internships play a critical role in shaping the future lives of GVSU students. Talent Link seeks to **enhance the value of a liberal arts and sciences degree** while meeting the needs of West Michigan employers through a unique employer-funded program. Student scholars receive:

- \$15,000 employer-sponsored scholarship to layer a technical certificate on top of their major.
- Participation in a co-curricular cohort to prepare for the internship.
- Paid internship with an employer partner.
- Good faith job offer post-graduation if positions are available.

There are many opportunities to engage as faculty, including internship support and coordination, new certificate development, employer relations, and skill tracking and assessment. For information, please contact Dana Hebreard at hebreard@gvsu.edu
