Child Development – PSY 301 – Fall 2024

Grand Valley State University - Department of Psychology

Section 03	Section 06
8:30 – 9:45 am	11:30 – 12:45 pm
Tues & Thurs	Tues & Thurs
2132 Au Sable Hall	1310 Au Sable Hall

Prerequisite: PSY 101, 201, or HNR 234 Instructor: Naomi J. Aldrich, PhD

(minimum grade of D or higher)

Office: 2205 Au Sable Hall **Required Course Materials:** Email: aldrichn@gvsu.edu

Office Hours: 1:00-2:00 pm (T/TR)

(Additional hours available per request)

To Make Appointment go to: https://aldrichn.youcanbook.me/ or scan below:

Access to a Computer & High-Speed Internet Must meet Blackboard browser requirements & have speakers

E-book with Achieve Access (Cost: \$106.00) How Children Develop, 7th Edition (Siegler et al., 2024) - ISBN: 2810500010946

You will access these materials through our Blackboard course; you do not need to purchase anything else (see page 2 for more information)

GVSU Save Program and Textbook Information

Our course is participating in the GVSU SAVE program which means your course material will be available through the course's Blackboard page. You should have received a "Welcome Email" that explains the GVSU SAVE program. You have been charged for your course material as part of your tuition. The deadline to opt-out of the SAVE program is midnight on Friday, Sep. 6th. Please be aware, if you opt-out you will be responsible for purchasing the required course material on your own.

For the instructions to opt-out, and more information about the program visit the GVSU SAVE website at: https://lakerstore.gvsu.edu/gvsusave

If you have any questions or are experiencing any issues, please contact: lakersave@gvsu.edu

How to Access the Textbook:

- Go to our Blackboard Course
- Click on the "E-Book and Achieve Access" folder.
- Click on the "Student Registration Start Here" link.
- You DO NOT need a code and you DO NOT need to enter any payment information (this is all taken care of through the GVSU SAVE program).

Helpful Achieve Information:

- Recommended web browser is the latest version of Google Chrome or Firefox.
 Go here for links to check your version, update, or install a new version:
 https://mhe.my.site.com/macmillanlearning/s/article/Achieve-General-Troubleshooting-Tips
- You must allow session cookies and make sure you have disabled your pop up blocker (if it's on, a red dot will appear in the address bar when you try to open Achieve via Blackboard) How to Disable Pop Up Blocker in Chrome
- Students will also need to clear cache/cookies regularly (especially if assignments do not open): <u>How to Clear Cache and Cookies</u>
- It can also be helpful to try an Incognito Window in Chrome, if you're experiencing loading issues (due to cookies/cache). Here's how: Incognito Window
- Need Help? Contact Macmillan Achieve Customer Support via online chat
- For <u>urgent/time sensitive issues</u>, please CALL Achieve tech support at (800) 936-6899

Course Description

Overview: The material for this course will be presented in a mixed-methods format meaning that I will use in-class activities and discussions (both instructor-led and student-led), and videos to supplement the course readings and lectures. In doing so, I expect you to become engaged with the material in a manner that deviates from strictly memorizing facts. We will focus on an overview of the theories, methods, and phenomena of child psychology, and will examine the implications of this information for enhancing child development. Multiple aspects of development, including physical, cognitive/intellectual, and social/emotional development from conception to adolescence, will be considered. The approach to the course topics is scientific, with an emphasis on recent research findings in developmental psychology.

Course Objectives: Upon successful completion, students will be able to:

- 1) demonstrate an understanding of the basic concepts and theoretical paradigms that direct the field of Developmental Psychology
- 2) describe, and think critically about, changes within the developing person from conception to adolescence
- 3) discuss both traditional and current explanations for trends in children's physical, cognitive, and social/emotional growth
- 4) understand the scientific method and apply it to the understanding of child behavior and development
- 5) apply knowledge regarding child development to both observations of children and to interactions with children

Important GVSU Resources

Student Resources: GVSU offers a variety of support for students. These include assistance with basic needs (such as food, housing, and laptops), academic support (such as tutoring and career advice), and wellness resources (such as health/mental health and opportunities to become more engaged with other students). Here is a link to some of the resources currently available to students: https://www.gvsu.edu/care/campus-resources-15.htm Please do not hesitate to reach out to me if you have any questions or if you are looking for a certain type of support. If I do not know the answer, I will try to find someone who does ...

Disability Support Resources: If you need academic accommodations because of a learning, physical, or other disability, please contact Disability Support Resources at 331-2490 to develop a plan of assistance that you can provide to me.

Psych Friends Peer-to-Peer Mentors: Psych Friends mentors are upper-level psychology and behavioral neuroscience students who provide guidance and support in many areas, such as: effective studying and time management techniques, understanding the PSY and BNS major requirements, careers in the field, and the process of applying for graduate school. Visit https://www.gvsu.edu/navigate to schedule an online or in-person meeting today!

University Counseling Center: The University Counseling Center (UCC) provides personal, career, and group counseling to GVSU students for free. Furthermore, the UCC offers many self-help resources to students, including personal development assistance in dealing with issues of depression, loneliness, and how to manage stress, as well as study skill assistance such as test taking strategies, tips on how to successfully speak in front of a classroom, as well as guidance in writing research papers. For more information, please visit: http://www.gvsu.edu/counsel/ Phone: 331-3266, Email: gvcounsl@gvsu.edu The UCC is located at:

<u>Allendale Campus</u>: 206 STU (Mon – Thurs: 8am – 5pm; Mon – Fri: 8am – 3pm) Downtown Pew Campus: DeVos 101B (Mon – Thurs, 8am – 5pm)

Telehealth Appointments Available

If you or someone you know is in crisis, please reach out for support.

Class Etiquette

Communication with me: The best way to reach me is through email. If you do not include "PSY 301" in the subject line, I may not read or respond to your email. Please use complete sentences and check for spelling errors. Also, please sign your full name and include your section number so I know who you are and what class you attend. Also, please make sure to read your syllabus as the answer may be listed in these pages.

Classroom behavior: Students are expected to behave appropriately during class. You may use the following principles to guide your classroom behavior: Your behavior should not be disruptive or distracting to the instructor or your classmates. The following will help you determine appropriate classroom behaviors. The following list is not exhaustive.

- 1) **Come to class on time.** Your late entrance is distracting to everyone.
- 2) **Stay for the entire class period.** If you must leave early, sit near the exit and leave quietly.
- 3) Put your cell phone on vibrate before coming to class.
- 4) You may eat or drink quietly during class, but **please clean up after yourself**. Also, no food or drinks during exams.
- 5) **Talk only when you have been given the floor.** Talking with the people next to you is distracting to everyone. If you are asking your neighbor a question about the course, it is likely that everyone will benefit if you raise your hand & ask your question of the instructor.
- 6) **Be attentive.** You may not realize it, but it is distracting to your instructor if you read a magazine in the back of the classroom or doze off during class. I cannot focus on the information I am trying to convey if I am worried that I am boring you.

Course Policies

Attendance: It is your responsibility to be in class during the scheduled times and to be on time. Coming in late is rude to the other students. Failure to attend class regularly can negatively affect your grade as there will sometimes be opportunities for in-class points. The dates on the class schedule for all assignments, exams, and presentations are firm. Except for students with extenuating circumstances (with documentation provided), I do not allow students to make up assignments/exams or turn in work late. Please email me or see me during office hours if you know ahead of time that you will miss class.

Academic Integrity: Academic integrity often feels ambiguous, as the specific behaviors that are considered misconduct vary somewhat across disciplines and courses. My guiding principle is that I want to know what YOU have learned in this course. Behaviors that facilitate your learning the material are acceptable; behaviors that make it appear as if you have learned the material when you have not, are unacceptable. Behaviors that create the appearance of an unfair advantage or allow others to question whether you have really learned the material, such as having access to unapproved materials during an assignment/exam, are also unacceptable.

Students are expected to work within GVSU's Code of Student Conduct. Please see http://www.gvsu.edu/studentcode/ for more information and familiarize yourself with these policies regarding dishonorable conduct. No matter how mild or severe the cheating is, it is entirely unacceptable, and I will enforce the current policies fully.

<u>Plagiarism</u>: As described by the GVSU Student Code, "Offering the work of someone else as one's own is plagiarism..." "Any ideas or material taken from another source for either written or oral presentation must be fully acknowledged." "**Depending on the**

instructor's judgment of the particular case, he/she may...give a failing grade for the ... entire course." Simply rearranging the words or substituting synonyms in the original source is still plagiarism. Furthermore, students should not self-plagiarize, that is, reuse their own work from another course.

<u>Peer Collaboration</u>: Collaborative work will be assigned in this course. Collaborative work means sharing ideas with your peers and working together to complete an assignment/project. Collaboration does not mean giving completed work to your peers to use. If you have questions about what kind of collaboration is allowed, please ask.

Artificial Intelligence: You are expected to complete all work, and all phases of work, without any assistance from advanced automated generation tools (AI or machine learning tools, such as ChatGPT, Dall-E 2, etc.). Using them may interfere with your progress as an independent thinker and your achievement of the course's outcomes. If you use these tools in this course, your actions would be considered academically dishonest and a violation of our academic integrity policies.

It is always OK to:

- Ask questions.
- Study with classmates.
- Work together with classmates on homework or projects, so long as each of you
 performs your own work and, in the end, can explain it in your own unique words.
- Use sources (not including generative AI tools) to support your ideas and arguments, so long as you (1) restate the material in your own words, showing me what you think it means rather than copying and pasting or narrowly paraphrasing, and (2) you give credit to the original source with a citation. The words should be yours, but you still need to give credit to the source of the ideas.

It is never OK to:

- Have any materials (e.g., textbooks, notes in any form) accessible during quizzes/exams unless I have explicitly given you permission. This includes access to electronic devices (e.g., smart watches) that could conceivably be used to store notes; I want you to avoid even the appearance of improper behavior.
- Present anyone else's words or work as if they are your own. If you are defining terms, you should state them in your own words and cite the source. In this course, there is no reason to use direct quotations.
- Use a generative AI tool for assignments/projects in this course during any stage of completion.
- Allow anyone else to present your words or work as their own. Enabling someone else's academic misconduct is also academic misconduct, even if you are not benefiting from it.
- Share assignments or quiz/exam questions or details with anyone who has not yet completed the work or taken the quiz or exam.

These lists are not exhaustive – if you have any questions at all, please ask.

This course is subject to the GVSU policies listed at: http://www.gvsu.edu/coursepolicies/

Evaluation Criteria

Introduction to Course Assignments (<u>due by 8am on Monday September 2nd</u>): To familiarize yourself with the requirements and materials you will need to be successful in this course (and to help guide my teaching) you are expected to complete these assignments during the first week of class:

- Read this syllabus; yep, the entire thing
- Achieve Orientation Assignment = 5 points
- Blackboard Pre-Test Assessment = 5 points (for completing)
- **★** Total Intro Assignment Points = 10 points
- **★** Together, intro assignment points count for 1% of your final grade

Developing Lives – Virtual Parent Experience: In this course you will have the opportunity to experience "parenthood" by using a program called Developing Lives. This is a wonderful opportunity for you to think through the different stages of development a child goes through, from conception through adolescence, and to consider the choices parents make each and every day!

During this semester-long assignment, you will "raise" a virtual child from sperm and egg to teenager, encountering decisions based on planned and unforeseen life events, both big and small. Each choice you make will affect your child, as in real life.

There are 6 units in this system: Introduction (creating your parent profile), Prenatal, Babies & Toddlers, Early Childhood, Middle Childhood, and Adolescence. The units require you to complete activities to raise your child and quizzes regarding the child's developmental period. I suggest completing these assignments as we progress through the appropriate developmental periods in class. However, Developing Lives assignments are due by December 5th by 11:00pm. You must complete each unit before moving on to the next unit within the program.

- **★** Total Activity Points = 35 points
- ★ Each Quiz is worth 4 points
- ★ Total Quiz Points = 6 quizzes x 4 points = 24 points
- **★** Together, Developing Lives counts for 5.9% of your final grade

Learning Curve: You have been assigned a "Learning Curve" adaptive quiz tool for each reading (23 total). These can be helpful for learning the material and identifying areas you should spend more time studying to understand the material. The purpose of the Learning Curves is to encourage students to keep up with the readings and will be available in Achieve weekly. There is a target score you must reach to obtain the full 2 points for each Learning Curve, but you can continue to practice the material as long as you wish. Learning Curves are due by the Sunday (at 11:00pm) before: Exam #1 (Learning Curves 1a – 5b), Exam #2 (Learning Curves 6a – 10b), and Exam #3 (Learning Curves 11a – 14a). Because Learning Curves will document a student's class readiness, there are no make-ups.

- **★** Each Learning Curve is worth 2 points
- **★** Total Learning Curve Points = 23 x 2 points = 46 points
- **★** Together, Learning Curve counts for 4.6% of your final grade

Exams: Each student will take three examinations (and a final "conference" exam discussed below). Dates for these exams are indicated on the last pages of the syllabus. Exams 1, 2, and 3 will each include 50 multiple-choice questions and are closed book; they will evaluate what you have learned in the readings and through lectures, class activities, and videos. All material in the assigned textbook chapters is testable. There will be no make-up exams without extenuating circumstances.

- ★ Exams 1, 2, and 3 are each worth 150 points
- **★** Total Exam Points = 3 exams x 150 points = 450 points
- **★** Together, Exams 1 3 count for 45% of your final grade

Group Learning Activity: Each student will sign up for a learning activity topic (topics listed on the class schedule) during the first week of class. There are 10 learning activity groups with 3-5 students in each. Each group will be given a source article on their topic (available on Blackboard) and members will work together to design a 15-20 minute inclass activity of the assigned topic. The primary goal of the activity is to develop an in-class demonstration that will creatively engage your fellow classmates in learning the material. The ways in which the group decides to approach this goal is left up to the group. Possibilities include, but are not limited to: creating a game, role-playing, video demonstrations, etc. I strongly suggest that groups meet with me to discuss their ideas before presentation to the class. Rubrics will be distributed in class for grading of the group activity (also available on Blackboard and will be discussed more in class).

- **★** My grading of your Learning Activity is worth 80 points
- **♦** Classmates' grading of your Learning Activity (averaged) is worth 20 points
- **♦** Your group members' evaluation of your contribution (averaged) is worth 20 points
- ★ Total Learning Activity Points = 80 + 20 + 20 = 120 points
- ★ The Learning Activity counts for 12% of your final grade

Observation Project: The study of developmental psychology is greatly enhanced by the opportunity to observe children and conduct research. Therefore, there is an outside observation project required for PSY 301. Details for completing the Observation Project are available on Blackboard and will be discussed more in class. Rubrics will be posted for grading of the group conference presentation and your contribution to the group. **Each student is required to complete both the individual and group requirements listed below:**

Individual Requirements:

- Interview/test 2 children: one "younger" (4-7 years) and one "older" (8-11 years)
- Complete a data packet (6 developmental assessments) per child
- Turn in FOR EACH CHILD:
 - ✓ A picture of a signed parental consent form
 - ✓ A picture/screenshot of you working with child
 - ✓ A complete data packet submitted via Qualtrics survey
 - **★** Individual Data Collection is worth 90 points
 - **★** Individual Data Collection counts for 9% of your final grade

Group Requirements:

- Complete "Group Preferences" sheet (posted online) to be assigned to a research team
- Create appropriate coding/scoring method for your assessment data
- Complete data analyses
- Each group is required to:
 - ✓ Create a PowerPoint presentation to summarize their project
 - ✓ Present their project and findings at our "Child Development Conference"
 - ✓ Submit 10 multiple-choice questions on their project and findings to class via Blackboard for possible inclusion on final "conference" exam.
- **★** My grading of your group's performance is worth 80 points
- ★ Classmates' grading of your group's performance (averaged) is worth 20 points
- Your group members' evaluation of your contribution (averaged) is worth 20 points
- **★** Total Conference Presentation Points = 80 + 20 + 20 = 120 points
- **★** The Conference Presentation counts for 12% of your final grade

Final "Conference" Exam: There will be a 35-multiple-choice question exam on the last day of class after our Child Development Conference. The questions will cover information from the observation project presentations during the conference. I will choose 5 of the 10 questions submitted by each group to include on the final exam as well as 5 additional questions written by me.

- **★** Final Conference Exam is worth 105 points
- ★ Final Conference Exam counts for 10.5% of your final grade

Extra Credit Opportunities (not required): There are three opportunities for extra credit in this course (additional opportunities may become available but are not guaranteed). Extra credit opportunities will always be made available to the class as a whole – individuals may not negotiate special arrangements for extra credit. Additional extra credit will **NOT** be given in any circumstances after final grades have been posted.

You will have the opportunity to complete three **Goal-setting & Reflection Surveys** in Achieve for 5 points each (15 points total). These surveys focus on ways to help students develop greater self-awareness and study habits to succeed in this course. The three surveys will be available at different points in the semester (see below). **Please note that the <u>deadlines for completing the extra credit assignments are firm and listed in Achieve and below:**</u>

- Intro Survey available first 2 weeks of course (due by 11pm on Sun. 9/8)
- Checkpoint Survey #1 available after Exam #1 (due by 11pm on Sun. 11/3)
- Checkpoint Survey #2 available after Exam #2 (due by 11pm on Sun. 12/1)

Grade Evaluation

As indicated above, credit for this course will be based on student performance in these areas. You can track your grades here:

Student Assessment:	Points Earned:	Points Possible:
Intro Assignments		
Achieve Orientation		5 5
Pre-Test (for completion)		5
Developing Lives		
Activities (total)		35
Introduction Quiz		4
Prenatal Quiz		4
Babies & Toddler Quiz		4
Early Childhood Quiz		4
Middle Childhood Quiz		
Adolescence Quiz		4
Learning Curves		
One per reading (23 total		46
x 2 points)		
Learning Activity		120
Exam #1		150
Exam #2		150
Exam #3		150
Observation Project		
Data Collection		90
Conference Presentation		120
Final Conference Exam		105
Extra Credit		
LAUG OFGUIL		
Total Points Earned		1,000

Grading scale to determine your final grade for the course:

Grade:	Percentage:	Points Needed:
Α	93% and	at least
	above	925
A-	90% - 92%	at least
		895
B+	87% - 89%	at least
		865
В	83% - 86%	at least
		825
B-	80% - 82%	at least
		795
C+	77% - 79%	at least
		765
С	73% - 76%	at least
		725
C-	70% - 72%	at least
		695
D+	67% - 69%	at least
		665
D	63% - 66%	at least
		625
F	62% or lower	624 or
		fewer

Course Schedule:

Class #	Dates	Readings	Topics & In-Class Activities	
		(To be done before class)	Lecture	Activity & Deadlines
1	8/27		Introduction to Class	
2	8/29	Welcome to Achieve,	Why Study Children?	Group Meet Up
