

Dear GVSU Community,

Grand Valley is committed to empowering students and improving their experience. As part of this effort, the university announces the start of the [Workday Student project](#), scheduled to go live in fall 2027.

Workday Student will simplify admission to graduation processes, work well on mobile devices, and integrate separate systems into a single application.

**Students Will:**

- Register for, add, and drop classes
- View course schedules and grades
- Manage payments, refunds and view financial aid

**Faculty and Staff Will:**

- See schedules, enrollments, and advisee information
- Find course locations and formats
- Access rosters and grades
- Obtain student and advisee info when appropriate
- View annual course schedule

**New features not available in Banner:**

- Utilize reporting features to support students and decision making
- View student email communications sent through Workday

Led by the [Workday Student Project Team](#), individuals from academic affairs, financial aid, admissions and recruitment, registrar's office, student accounts, institutional analysis, and information technology will work with Alchemy, a company specializing in higher education Workday implementations.

More updates and opportunities to get involved will be shared as the project progresses. If you have questions, fill out [the Workday contact form](#).

Dr. B. Donta Truss,  
Vice President for Enrollment Development and Educational Outreach  
Workday Student Executive Sponsor

Katherine Fay  
Director of the Project Management Office
