

Save the Date and Call for presenters

Math in Action Conference

Saturday, February 22, 2025

Mackinac Hall, GVSU Allendale Campus

What is Math in Action? Our conference presents lively and informative discussions of current issues in Pre-K to 12 mathematics education. We provide opportunities for practicing teachers, prospective teachers, curriculum directors, and college and university faculty to share ideas, concerns, and resources. Math in Action includes keynotes and hour-long sessions with multiple interactive presentations on specific mathematical topics. There is something for every grade level in each session.

Share your ideas! We welcome presentation proposals from everyone engaged in improving mathematics teaching and learning. Past presenters range from early-career, first-time speakers to nationally recognized experts. What do you have to share with our community?

Learn more and submit your proposal:
