

KNOWLEDGE RUBRIC

for all Foundations, Cultures, and Issues courses

The goal is for students to achieve level 3 for the Knowledge Student Learning Outcomes by the end of each GE course.

A student – regardless of major – demonstrates:

- 4=advanced understanding
- 3=basic understanding
- 2=substantial progress toward a basic understanding
- 1=limited understanding
- 0=very limited or no understanding

Assess each student's work by assigning a rating from 0 to 4. Leave the assessment spreadsheet blank if the work was not done (do not use a 0 if the student did not do the work). For the rare case of student work that is markedly better than level 3, assign a 4.

Assign ratings based only on the part of the assignment relevant to the knowledge outcome being assessed. Reminder – course grades can never be used for GE assessment purposes.
