If it wouldn't be smart to do it at home, is it really something you should be doing abroad?

Dating Apps

We do not recommend using dating apps while abroad

Must communicate if you do

Who, when, where, time return, when to be concerned

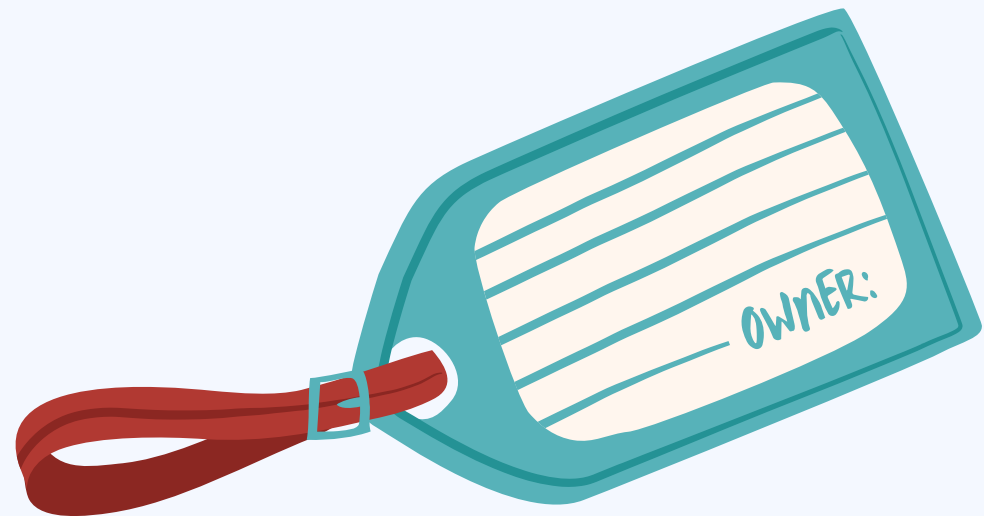

Guests

Families are encouraged to visit after program concludes

Guests during program can disrupt learning and group dynamic

Communicate with fac-director if you are having guests during free weekends

Communication

If you will be out outside of normal program activities, for whatever reason, tell your fac-director

If something is wrong, tell your fac-director about it! They are your first line of support

If you aren't comfortable talking with your faculty, please contact PIC -- we are here to help.

Communication

If you have to tell your classmates to keep it a secret, you are probably putting yourself at risk.

Risky behavior is infinitely more dangerous when abroad.
