PURPOSE ADDENDUM NO. 1

CLARIFICATIONS / REVISIONS

ITEM NO. 1 Attachments
Addendum No. 1

ITEM NO. 2 Q&A
Addendum No. 1

Questions/Clarifications:

- The RFP indicates that the solution should be operational by August 1, 2022. To attempt to achieve this and to ensure that implementation timelines can be met, by what date do you plan to award the contract to the selected vendor?
Answer: The winning bidder will be notified within three weeks of the bid due date.
- Except for data from UPSafety and T2 pay stations, are there any other payment applications that the University is looking to feed for enforcement, such as mobile payments?
Answer: GVSU uses Luke II pay-stations to pay in the lot and currently uses ParkMobile for its mobile payment solution.

Sincerely,

Valerie Rhodes-Sorrelle, C.P.M.
